in Thabang(khalifa) Ledwaba

Objective

A skilful, innovative and dynamic individual with a Diploma in Information Technology from the Vaal University Technology that reflects a strong IT academic background. I am currently looking to secure an internship or a graduate position that will enable me to use and develop my excellent analytical, troubleshooting and communication skills. I have gained experience through the projects and practical work we did at the university which allowed me to build on my problem solving, leadership and team working skills. Currently seeking IT software developer position that will help me to establish a career in software development where my exceptional organisational skills will be put to best use. I am committed to continuous learning and development to better my skills and abilities in my career field.
